

Mini MICR

Optimized to reduce transaction time and manual entry errors, the Mini MICR is a single-feed MICR reader with a reliable and durable design. Ideal for retail applications where fast and accurate MICR reading is required, the Mini MICR offers a range of interfaces options, including connectivity to the most popular POS terminals. With a simple drop-and-push check feed movement, the Mini MICR significantly speeds check verification and conversion.

Benefits

The Mini MICR enables users to easily format the MICR data to match any application input requirements. In a single pass, the Mini MICR reads E13B and CMC7 MICR fonts and connects to POS terminals through a USB, RS-232 or PC keyboard wedge interface. Designed for multi-use environments, the Mini MICR also offers an optional 3-track magnetic stripe reader to read ISO standard credit and debit cards and ID cards. This highly dependable device will deliver superior performance throughout years of daily use.

Features

- Reads E13-B and CMC-7 MICR fonts
- Reads MICR characters on checks and other MICR-encoded documents
- Small footprint with high accuracy and dependability
- Optional 3-track MSR (magnetic stripe reader) for ISO and AAMVA cards
- Interfaces include USB, RS-232 and PC keyboard wedge.
- Other interfaces available
